

Fun

I can do that!

with www.MarshallFloralProducts.com

Choose your color of **Rainbow Foam Brick** & **Mini Cubes**, trim your brick to fit your container using **OASIS® Foam Knife**. Soak all foams in a solution of **flower food** and water (always place foam on the surface of the solution and allow it to sink by itself for proper saturation). Place your **Mini Cubes** into your container, place your **Rainbow Foam Brick** on top.

Wrap **OASIS® Aluminum Wire** around a pen to make a coil of wire. Leave an approximate 1" tail at the end of the wire, this will be inserted into the **OASIS® Rainbow Foam**.

Take your flowers, we used Gerbera Daisies, insert them into the coil of **OASIS® Aluminum Wire**. Insert them into your prepared container.

Use these ideas and your imagination to make it your own.

THAT WAS EASY!

(see reverse for list of materials)

OASIS® Aluminum Wire, 12 gauge wire, strong yet pliant is available in 16 colors. **OASIS® Rainbow Foam Mini Cubes**, 1" x 1", are available in 10 colors. **OASIS® Rainbow Foam Bricks**, 9" x 4" x 3", are available in 10 colors.

The **PRODUCTS** you need are available on our website www.MarshallFloralProducts.com
