## I can do that!

with [www.MarshallFloralProducts.com](http://www.MarshallFloralProducts.com)

Choose your design ring and soak the ring in a solution of **flower food** and water (always place foam side down on the surface of the solution and allow it to sink by itself for proper saturation).

Choose your flowers and insert them into the wet foam. Place corsage pins randomly throughout your flowers.

Cut and loop aluminum wire loosely then insert into foam of design ring.

Wind your bullion wire around votive candle holders.

Add ribbon to taste!

Use these ideas and your imagination to make it your own. **THAT WAS EASY!**
