Choose your container, 10 oz. of foam powder will fill a 10 oz. vase, WET or DRY.

WET USE: Mix your foam powder with **flower food** and water solution in a large mixing bowl to the consistency of mashed potatoes.

Fill your container with the wet foam powder. Simply insert your live flowers into the wet foam.

DRY USE: Fill your container with dry foam powder. Insert you silk flowers. Use these ideas and your imagination to make it your own.

THAT WAS EASY!

**DO NOT DISPOSE OF USED FOAM POWDER
